Dear ADWR,

As a professional Water Manager representing HOA Communities, I am in full support of the draft of the 2nd version of the 5th Management Plan. Knowing that this is the 5th and final plan and an allotment reduction is necessary to reduce groundwater, I believe the ADWR is doing right by Arizona and by HOAs by incentivizing water use in the right areas. I want to thank ADWR and the Arizona Nursery Association for working on a solution that gives communities viable options to reduce their water footprint and at the same time will help encourage more Low Water Use Areas.

Thank you,

Mark
