As the Director of Agronomy for Grayhawk Golf Club the past 21 years and from a family that has been managing golf courses in the Scottsdale/Phoenix metropolitan for the last 85 years, I am writing to communicate my support for the current draft of the 5th Management Plan (5MP). I appreciate the Department working with the Arizona Alliance for Golf over the past year to improve earlier versions of the 5MP, and believe the current plan provides the best way to balance water conservation impacts and ensure the continued sustainability of the golf industry in Arizona. Grayhawk will continue to be engaged on these important conversations, and we support the plan that's been developed to take into account existing efficiencies among many in the industry.
