To: "docketsupervisor@azwater.gov" <docketsupervisor@azwater.gov>

I offer the following comments representing myself. I am not speaking for the Council nor the citizens of Douglas.

The Proposed Management Goal lacks the inclusion of four items:

1. Mexico;
2. The distinction of the two basins within the DAMA;
3. Mention of existing cattle and agriculture sectors of the economy; and
4. Taking into consideration the future growth of the Douglas community.

I have further concerns regarding the rules and implementation of DAMA Goal, once finalized, and look forward to having the opportunity to comment.

Lastly, I would strongly encourage the ADWR to open a satellite office in Douglas once the DAMA is ready to be implemented.

Thank you for listening,

**Donald C. Huish**
