**DESIGNATION OF ADEQUATE WATER SUPPLY
DESIGNATED WATER PROVIDER ANNUAL REPORT**

WATER PROVIDER:

--	--

Address: _____ City, State, Zip code: _____

Owner name: _____ Contact name: _____

Title: _____ Phone: _____ Email address: _____

PART I- TOTAL WATER WITHDRAWN, DIVERTED OR RECEIVED IN _____, as reported by you on the Community Water System (CWS) report (if you file CWS): _____ acre-feet

PART II - COMMITTED WATER DEMAND

Committed demand is the estimated future water demand at build out of all **recorded** lots or parcels that are **not yet served** water within your service area. Estimate the future annual demand in acre-feet for undeveloped, recorded lots or parcels that were located in your service area as of December 31, _____. Report demand for residential lots and non-residential parcels separately as indicated below:

		Annual demand per residential lot (acre-feet/year)	Total annual demand (acre-feet/year)
Number of recorded residential lots	Number: _____		
Number or acres of recorded non-residential parcels	Number: _____ or Acres: _____		
		Grand total (acre-feet)	

Explain how the non-residential demand was calculated. Use a separate sheet if necessary.

PART III - PROJECTED ANNUAL WATER DEMAND

Project the annual water demand in acre-feet for each year indicated. Calculate the increase in demand for each year from the previous year. The projected demand in most cases will be greater than the total water use for the current year. Current year demand should equal the total water withdrawn, diverted and received for delivery in your service area for _____ as reported in Part I. Include all water sources used. To calculate GPCD (gallons per capita per day) divide the total demand in gallons per day by the population in your service area.

Year	Projected population	GPCD	Total Demand (acre-feet/year)	Increase from previous year (acre-feet/year)

Explain how the population projection was made. Use a separate sheet if necessary.

PART IV - WATER QUALITY

- A. Is the water provider currently in compliance with the Arizona Department of Environmental Quality’s state water quality standards and reporting requirements? _____ yes _____ no

If “no”, please provide an explanation on a separate sheet.

- B. Have any new Superfund or WQARF sites been identified within the water provider’s service area or have existing contaminant plumes migrated to be within one mile of any service area wells? _____ yes _____ no

If “yes”, please provide an explanation on a separate sheet.

PART VI - TOTAL WATER WITHDRAWN, DIVERTED OR RECEIVED

Instructions: Please report the volume of water withdrawn, diverted, or received from each source for delivery to customers in reporting year.
