## REVIEW OF DRAFT WATER RIGHTS ABSTRACTS

Pursuant to the Special Master's Order dated May 18, 2018, ADWR reviewed the proposed water right abstracts submitted by Brighthawk, LLC to confirm the accuracy of the points of diversion and places of use. In addition, ADWR confirmed and is hereby providing the GPS coordinates for the well listed as the point of diversion in the watershed file report (WFR) that serves as the source of water for the listed uses.

The table below displays the legal descriptions of the places of use and points of diversion for the draft abstracts. ADWR's comments are provided for each abstract and include GPS coordinates, based on NAD 83 datum, for the associated well, as appropriate. If a portion of the legal description is in question, that portion is shown in *underline italics*.

The legal descriptions listed in the abstract as point(s) of diversion are correct. They correspond to a well [Well Registry 55-224407 (W01 listed in WFR 115-04-ADB-001) located in NWNENE T6S R17E] and a surface water diversion (in-stream pump) from Aravaipa Creek located in NENENE T6S R17E. The legal descriptions are correct.
