REVIEW OF POTENTIAL WATER RIGHT ABSTRACTS

ADWR reviewed abstracts for three Potential PWRs in Watershed File Report 113-09-016.

PWR No:¹	Place of Use:	Point of Diversion:	SOC:	BOR:	Priority Date:	ADWR Comment:
113-09-016-TBD 113-09-016-SW021 Maple Spring	SWSWSW 27 T10S R20E	SWSWSW 27 T10S R20E	39-8086	36-12407	12/31/1917 12/31/1889	ADWR agrees with the contents of the abstract. The beneficial use in Statement of Claim 36-12407 can be matched to Statement of Claimant 39-8086. ADWR recommends Maple Spring be given PWR number of 113-09-016-SW021. ADWR recommends the POU and POD be given the more specific legal description of SWSWSW 27 T10S R20E based on GPS coordinates provided by the claimant and the spring location depicted on USGS 1:24,000 Mammoth East quadrangle map. ADWR records indicate a priority date of 12/31/1889 as found on the Statement of Claim 36-12407 showing a priority date of "1880's."
113-09-016-SP001 Bear Canyon	NENW 17 11S 20E	NENW 17 11S 20E	39-8414 39-5583	38-17073 38-81509	4/30/1968	In the HSR, this stockpond was incorrectly associated with WFR 113-12-005 based on the location described in SOC 39-8414 and

¹ Although ADWR is listing a potential PWR number in this column, these PWRs were not reported in the Hydrographic Survey Report for the San Pedro River Watershed and may require notice in accordance with Pretrial Order No. 5 in the Gila River adjudication filed March 29, 2000.

	SWSESW 8 T11S R20E	SWSESW 8 T11S R20E				<p>Claim of Water Right for a Stockpond 38-17073 of NENW 17 11S 20E.</p> <p>There is no stockpond visible on imagery or topo maps at that location.</p> <p>ADWR agrees that this PWR should have been assigned to WFR 113-09-016 based on the claimed location in SOC 39-5583 and Claim of Water Right for a Stockpond 38-81509. The PWR number should be 113-09-016-SP001.</p> <p>ADWR recommends the POU and POD be given a more specific legal description of SWSESW 8 T11S R20E based on the coordinates provided by the claimant. The stockpond is visible on current and 1980s imagery and investigative mylars at that location.</p>
Browning Tank	5 T11S R20E	5 T11S R20E	39-5585	38-81510	12/31/1967 3/31/1966	<p>ADWR records indicate a priority date of March 31, 1966 as found in Claim of Water Right for a Stockpond 38-81510.</p> <p>SOC 39-5585 and Claim of Water Right for a Stockpond 38-81510 were investigated for the HSR, and no beneficial use was found for these claims. ADWR has reviewed available filings, imagery, and the photographs provided by the claimant; however, without field investigation ADWR does not have sufficient evidence upon which to disagree with the original finding in the HSR of “No Use Found.”</p>
