Acknowledgements

The Phoenix AMA list was prepared in 2004 by the Arizona Department of Water Resources (ADWR) in cooperation with the Landscape Technical Advisory Committee of the Arizona Municipal Water Users Association, comprised of experts from the Desert Botanical Garden, the Arizona Department of Transportation and various municipal, nursery and landscape specialists. ADWR extends its gratitude to the following members of the Plant List Advisory Committee for their generous contribution of time and expertise:

Rita Jo Anthony, Wild Seed	Judy Mielke, Logan Simpson Design
John Augustine, Desert Tree Farm	Terry Mikel, U of A Cooperative Extension
Robyn Baker, City of Scottsdale	Jo Miller, City of Glendale
Louisa Ballard, ASU Arboritum	Ron Moody, Dixileta Gardens
Mike Barry, City of Chandler	Ed Mulrean, Arid Zone Trees
Richard Bond, City of Tempe	Kent Newland, City of Phoenix
Donna Difrancesco, City of Mesa	Steve Priebe, City of Phornix
Joe Ewan, Arizona State University	Janet Rademacher, Mountain States Nursery
Judy Gausman, AZ Landscape Contractors Assn.	Rick Templeton, City of Phoenix
Glenn Fahringer, Earth Care	Cathy Rymer, Town of Gilbert
Cheryl Goar, Arizona Nurssery Assn.	Jeff Sargent, City of Peoria
Mary Irish, Garden writer	Mark Schalliol, ADOT
Matt Johnson, U of A Desert Legum	Christy Ten Eyck, Ten Eyck Landscape Architects
Jeff Lee, City of Mesa	Gordon Wahl, ADWR
Kirti Mathura, Desert Botanical Garden	Karen Young, Town of Gilbert

Assists Regulated Water Users

The use of low-water-use/drought-tolerant plants is required in public rights-of-way and in other instances as described in the Fourth Management Plan¹ (4MP). The Low-Water-Use/Drought-Tolerant Plant List was developed to assist regulated water users in selecting landscaping plants that meet these requirements. Following are the sections in the 4MP of the Phoenix Active Management Area (PhxAMA) in which the list is referenced:

- Section 5-601(4) and (46) Definitions, Low Water Use/Drought Tolerant Plant List for the PhxAMA and Water-intensive landscaped area
- Section 5-610(A)(3), Individual User Requirements for Municipal Providers and Individual Users, requirements for public rights-of way
- Section 6.3.1, All Industrial User Program Description
- Section 6.3.2.2, Additional Conservation Requirements for turf-related facilities
- Section 6-601(6), Definitions, Low Water Use/Drought Tolerant Plant List for the PhxAMA
- Section 6-602(4) and (5), Conservation Requirements
- Section 6-603(A)(6), Monitoring and Reporting Requirements
- Section 6-701(13) and (25), Definitions, Low water use landscaped area and Turf acres
- Section 6-702(C)(2), Conservation Requirements for Turf-Related Facilities
- Section 6-707 (B)(1), Allotment Additions, Revegetation Addition
- Section 6-1301(5)(a), Definitions, Water-intensive landscaped area
- Section 6-1303(3), Monitoring and Reporting Requirements

Request to Waive the Requirement

Pursuant to the PhxAMA 4MP sections 5-610(A)(3) and 6-602(5), the ADWR Director may waive the requirement to use plants on the Low-Water-Use/Drought-Tolerant Plant List if the water user demonstrates to the satisfaction of the Director that the plants on the list cannot grow in a publicly owned right-of-way because of high elevation or low light conditions, such as a freeway underpass. Those who wish to request a waiver should submit their request in writing or by email to:

Einav Henenson, AMA Director
Arizona Department of Water Resources
1110 W. Washington St, Suite 310
Phoenix, AZ 85007
ehenenson@azwater.gov

The following information should be included:

1. Description of the location of the publicly owned right-of-way
2. Map showing the location of the right-of-way and the place where plants will be located
3. Scientific and common name of the plant under consideration
4. Description of plant's water needs, including references

¹ The 1980 Groundwater Code requires the preparation of a series of water management plans for each AMA that includes mandatory conservation programs. The PhxAMA 4MP was Adopted in 2020.

A Resource for Communities, Residents and Businesses

The Low-Water-Use/Drought-Tolerant Plant List is a resource for communities, residents and businesses that are interested in conserving water through low-water-use landscaping. Plants on the Phoenix AMA list can be grown in the Phoenix area with very low to moderate supplemental irrigation once they are established. Supplemental irrigation should be of sufficient quantity to saturate the plant's root zone. All plants listed can grow with less water than traditional high-water-use landscape plants.

Request to Modify the List

Prior to the 2008 state budget shortfall and subsequent closure of the AMA satellite offices, ADWR staff and landscape technical committees in the AMAs reviewed requests for modifying the Low-Water-Use/Drought-Tolerant Plant Lists. ADWR is currently exploring ideas for developing a web platform for managing the plant lists and making the information available to the regulated community and the public, revitalizing the landscape technical committees, and developing a web-based system for evaluating requests for modification. However, at the current time, anyone wishing to add, delete or modify information on the Low-Water-Use/Drought-Tolerant Plant List is encouraged to submit their request to the ADWR Director in writing or email to:

Einav Henenson, AMA Director
Arizona Department of Water Resources
1110 W. Washington St, Suite 310
Phoenix, AZ 85007
ehenenson@azwater.gov

DEFINITIONS AND KEY TO SYMBOLS

Plants in **bold** are from the official regulatory list for the Phoenix Active Management Area (PHX List). The additional plants (not in bold) are either from the *Phoenix Supplemental Information List (Suppl. List)* or from the *Landscape Plants for the Arizona Desert* booklet (Plants Book) developed by the Arizona Municipal Water Users Association (AMWUA), or from both sources. The *Suppl. List* includes plant names only. Additional descriptive information is included in the Plants Book. Botanical names have been updated when appropriate.

The *Suppl. List* was developed in 1999 as an informational appendix to the regulatory Phoenix AMA Low-Water-Use/Drought-Tolerant Plant List. The *Suppl. List* contains a listing of species which are considered representatives of the genera listed in the Low-Water-Use/Drought-Tolerant Plant List. The *Suppl. List* is only an informational tool and is not intended to limit the use of any species or cultivars within a genus. The list was compiled by ADWR in cooperation with the AMWUA Landscape Technical Advisory Committee.

The Plants Book is a guide to growing more than 200 low-water-use plants that are listed in and comply with the ADWR's Low-Water-Use/Drought-Tolerant Plant List for the Phoenix AMA. The Plants Book was developed by the AMWUA Regional Water Conservation Committee with technical assistance provided by landscape professionals in 2004.

Relative Water Use (H₂O Use):

Most plants require regular irrigation during the first 2- to 3-year establishment period. Plants should be watered to their root depth. Mature trees should be watered to a depth of 24" to 36"; Shrubs – 18" to 24"; Groundcovers and Vines – 8" to 12". Winter growers will require less frequent irrigation due to cooler temperatures. 0.62 gallons of water is equivalent to one inch of precipitation on one square foot of soil. All the plants on the Low-Water-Use/Drought-Tolerant Plant List use low water amounts. The numbers indicate **relative** water use:

- 1 = very low, relative to the other low-water-use plants on the list.**
- 2 = low, relative to the other low-water-use plants on the list.**
- 3 = moderate, relative to the other low-water-use plants on the list.**

Plant Type (PT):

An = Annual

C/S/Ac = Cactus/Succulent/Accent plant

Gc = Groundcover

Gr = Grass

P = Perennial

Sh = Shrub

T = Tree

V = Vine

Plants are placed in the growth form categories where they are most often used. This does not preclude the use of any plant in another growth form.

Flower Color: dominant colors seen on the blossoms.

Evergreen, Semi-evergreen or Deciduous: E, SE or D

Bloom Season: time of year that the plant will bloom.

Cold Tolerance (Cold Tol): the lowest temperature in degrees Fahrenheit that the plant is known to tolerate before suffering serious injury or death. Hardiness can vary with a plant's age, health, location and how long the temperature remains below freezing.

Origin: the location/s that the plant originated in and is native/endemic to.

Height (Ht) & Width (Wt): average size of a mature plant in normal landscape conditions, unless noted, height and width are in feet.

Night-blooming Hesperaloe	<i>Hesperaloe nocturna</i>	C/S/Ac

Phoenix Active Management Area Low-Water-Use/Drought-Tolerant Plant List

COMMON NAME	BOTANICAL NAME	PLANT TYPE
Notable Wattle	<i>Acacia notabilis</i>	Sh
Oak	<i>Quercus spp.</i>	T
Ocotillo	<i>Fouquieria spp.</i>	C/S/Ac
Ocotillo	<i>Fouquieria splendens</i>	C/S/Ac
Octopus Agave	<i>Agave vilmoriniana</i>	C/S/Ac
Old Man Saltbush	<i>Atriplex nummularia</i>	Sh
Oleander	<i>Nerium oleander</i>	Sh
One-sided Bottlebrush	<i>Calothamnus quadrifidus</i>	Sh
Orange Bells	<i>Tecoma hybrid</i>	Sh
Orange Zexmania	<i>Wedelia texana (W. hispida, Zexmenia hispida)</i>	P
Orchid Tree	<i>Bauhinia mexicana</i>	T
Orchid Tree	<i>Bauhinia macarantnera</i>	Sh
Orchid Tree	<i>Bauhinia ramosissima</i>	Sh
Oreganillo	<i>Aloysia wrightii</i>	Sh
Organ Pipe	<i>Stenocereus thurberi</i>	C/S/Ac
Owl's Clover	<i>Orthocarpus purpurascens</i>	An
Painted Spurge	<i>Euphorbia heterophylla</i>	An
Pale Blue Trumpets	<i>Ipomopsis longiflora</i>	P
Paleleaf Yucca	<i>Yucca pallida</i>	C/S/Ac
Palm Canyon Justicia	<i>Justicia sonora</i>	Sh
Palmer's Penstemon	<i>Penstemon palmeri</i>	P
Palo Blanco	<i>Lysiloma candida</i>	T
Palo Blanco	<i>Acacia willardiana</i>	T
Palo Brea	<i>Parkinsonia praecox (Cercidium praecox)</i>	T
Palo Chino	<i>Havardia mexicana (Pithecellobium mexicanum)</i>	T
Palo Verde	<i>Parkinsonia spp. (Cercidium spp.)</i>	T
Paperflower	<i>Psilostrophe tagetina</i>	P
Paperflower	<i>Psilostrophe cooperi</i>	P
Parish's Golden Eye	<i>Viguiera parishii (Viguiera deltoide)</i>	Sh
Parry's Agave	<i>Agave parryi</i>	C/S/Ac
Parry's Penstemon	<i>Penstemon parryi</i>	P
Partridge Breast Aloe	<i>Aloe variegata</i>	C/S/Ac
Passion vine	<i>Passiflora foetida</i>	V
Penstemon	<i>Penstemon spp.</i>	P
Peruvian Verbena	<i>Glandularia peruviana (Verbena peruviana)</i>	Gc
Pineapple Guava	<i>Feijoa sellowiana</i>	Sh
Pineapple Weed	<i>Matricaria grandiflora</i>	An
Pine-leaf Milkweed	<i>Asclepias linaria</i>	Sh
Pink Everlasting	<i>Helipterum roseum</i>	An
Pink Fairy Duster	<i>Calliandra eriophylla</i>	Sh
Pink Muhly	<i>Muhlenbergia capillaris</i>	Gr
Pink Trumpet Vine	<i>Podranea ricasoliana</i>	V
Pistachio	<i>Pistacia spp.</i>	T
Pomegranate	<i>Punica granatum</i>	Sh
Poplar-leaf Eucalyptus	<i>Eucalyptus populnea</i>	T
Potato Vine	<i>Solanum jasminoides</i>	V
Prairie Flameleaf Sumac	<i>Rhus lanceolata</i>	T
Prairie Zinnia	<i>Zinnia grandiflora</i>
